Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This office action is in response to the amendment received 11/12/09.

Claim Objections

Claims 13-17 objected to because of the following informalities: Applicant has stated in the Remarks, received 11/12/09, that the “Trim panel” and “support part” are intended to refer to the same reference character. Claims 13-17, however, claim both interchangeable terms separately (“a trim panel” and “a support part”). Since they refer to the same component, consistent terminology should be used. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13-32 rejected under 35 U.S.C. 102(b) as being anticipated by Itou US 4973105.

Re claims 13-17, Itou discloses a trim panel (also a support part, comprising 3, 4, 41), a seat component 1, a seat cushion 12, a seat substructure (including a first part 91 and a second part 92; see col. 1, lines 37-44), the trim panel attachable to the seat

component (via 11), having a first portion 3 and a second portion 4 to substantially conceal the first part of the seat substructure (see Fig. 8) wherein the support part is displaceable with the seat component in a horizontal direction; a decorative surface 6 which partially covers the support part (covers at least 3, see Fig. 8), locking elements 'R', ribs (the horizontal flanges on 3, see Fig. 9, are considered to meet the broad limitation of ribs).

Re claims 18-27, see above. Further, Itou discloses the seat component is displaceable relative the first seat part in a vertical direction (see Figs. 8 and 9), a seat shell 11, wherein the first part of the seat substructure 91 has a frame which encircles the seat shell in the same plane of the seat shell (see Fig. 10, the substructure is in the same vertical plane as the seat shell, and since it is located on the outside of both sides of the seat shell, it is considered to meet the limitation of "encircling").

Re claims 28-32, see above.

Response to Arguments

Applicant's arguments filed 11/12/09 have been fully considered but they are not persuasive. Applicants amendment and clarifying remarks have caused a new interpretation of the Itou reference, and rendered the previous arguments moot. All claim limitations are met by Itou as discussed above.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
